Summary

I am a Motivated Junior Developer with strong educational and practical backgrounds focused on Full stack development. Expertise includes multiple languages with extensive use of Node.js, C, JavaScript, TypeScript, Python and MIPS. Also, a knowledgeable Student talented at learning quickly and adding value to any team. I have a good history of successful projects using leadership, communication, and teamwork to complete tasks. Solid academic achievement paired with demonstrated commitment and integrity. Highly passionate about learning new skills. Ambitious and driven individual ready and willing to work hard and learn from professionals. Bringing outstanding computer and communication skills.

Experience

NBN Co / Service Desk (MyIT deskside support)

April 2022 - Present, Sydney

- This job has served as a great opportunity for me to understand the hardware side of things.
- Also, I love the challenge that this job presents as a user could have any weirdest kind of problem and we must understand that problem and troubleshoot it for them then and there.
- I have learned a lot of other things as well such as reimaging laptops, how an office handles its network wired and wireless, the basic way of taking and dealing with a user and many other things that I think will help me in the future endeavors that I take.

ABN AMRO Clearing / Junior Developer

Dec 2021 – April 2022, Sydney

- Developed the MiFid project with testing, Database connections and full backend development in Python.
- This was an automation project meaning that I automated the MiFid reporting process that happens at the bank every day.
- I was the sole developer on this project which really helped me grow as I couldn't rely on anyone and hence had to meet the deadlines myself.
- Highly passionate and dedicated and hence just for this job I would research on my own to get the best result possible the next day.

Pyramid Global Technologies / Asset Auditor

Sep 2021 - Sep 2021, Sydney

This was a one-day contract job in which we were meant to do an asset audit at Capgemini for the company.

- I was the team lead for the project and carried out all the communication that happened with the customer as a responsible employee.
- We were highly efficient in our job and finished the job way before the allocated time.

Education

UNSW / Bachelor of Science (Computer Science)

October 2021 - September 2024, Sydney

- 2nd year at Uni
- Participated in Global Innovators Program by AIESEC and came 3rd

Creathics Public School / High School Diploma

June 2019 - July 2021, India

- First in school in Year 12 (with 95% marks overall)
- First in School's Sports day Badminton Competition

Skills

-
- Node.js, JavaScript and TypeScript developer
 - MIPS developer
 - C developer
 - Python developer
 - GIT
 - Prezi
 - Microsoft Word, Excel and PowerPoint

Hobbies

-
- Astronomy and Astrophysics
 - Physics
 - Formula 1
 - Badminton
 - Cricket

Voluntary

UNICEF INDIA / COVID Awareness (Young Warrior)

December 2020 - June 2021, India

As a part of this I helped people with getting vaccine appointments and not getting caught up in wrong information being spread by people on social media.

Castle Hill High School / Tutoring

February 2018 - September 2018, Sydney

I tutored a Year 6 student in Mathematics.
